

Scope

We are a small company that been going since June 2010, we are based in Oldbury in the West Midlands. We cover the whole of the country collected all types of fire equipment i.e. fire extinguishers all types, all electrical items including batteries, alarms & detectors - recycled with reputable metal companies to reduce the impact on the environment.

Our collections range from vans, roro, pallets & drop off (only to our Birmingham branch).

The Company operates an integrated management system consisting of a quality & environmental processes for recycling of all types of fire equipment to make us compliant ISO 9001 & ISO 14001.

The objectives of this company management system are detailed in each Process Map, which includes their method of monitoring. The objectives, including this policy statement, are reviewed based on results of analyses carried out from time to time, internal/external audits and management reviews.

Prime tenets of this management system are to enhance customer satisfaction and to identify and implement continuous improvement in all areas. These two cornerstones are integral within all processes and procedures operating within the Company.

The Company is committed to ensuring compliance with environmental legislation and other regulations to which the Company subscribes as mentioned above. Under the requirements of ISO 14001 the Company is committed to the prevention of environmental pollution especially when dealing with waste that arises from the recycling activities involved in the day to day business operations.

Adherence to this policy involves all the Company's employees. Implementation is detailed in the Company's Process Maps and Procedures. All employees are committed to the quality, environmental and Health and Safety concepts and participate in the operation of the Management System. All employees are committed to continual improvement of the Management System by informing the management where improvements in forms, procedures or processes may have a long-term benefit on the effectiveness of the Management System. Copies of the Company Profile and Vision will be made available to the public on request.

We pride our self on giving excellent customer services by having a full understanding of the needs & expectations of third parties.

All customer is supplied an annual or individual duty of care after the collections as documented evidence & responsibilities on the impact on the environment.

We are exempt **8.3 Design and development of products and services**

The scope of any application of the International Standard must be clearly defined.
