

Environmental Policy Statement

Fire Protection Recycling Limited founded in 2010 (the 'Organisation') recognises the importance of environmental protection and health & safety is committed to operating its business responsibly and in compliance with all legal requirements relating to the collection and recycling of its fire associated products. It is the Organisation's declared policy to operate with and to maintain good relations with all regulatory bodies.

It is the Organisation's objectives to carry out all measures reasonably practicable to meet, exceed or develop all necessary or desirable requirements in ISO 14001:2015 & to continually improve environmental performance through the implementation of the following objectives:

- a) Assess and regularly re-assess the environmental effects of the Organisation's activities
- b) Training of employees in environmental issues
- c) Minimise the production of waste
- d) Minimise material wastage
- e) Minimise energy wastage
- f) Promote the use of recyclable and renewable materials
- g) Reduce and/or limit the production of pollutants to water, land and air
- h) Control noise emissions from operations
- i) Minimise the risk to the public and employees from operations and activities undertaken by the Organisation
- j) To protect the environment can include sustainable resource use, climate change mitigation and adaptation, and protection of biodiversity and ecosystems.
- k) Commitment to the protection of the environment, including prevention of pollution and other specific commitment(s) relevant to the context of the organisation.
- l) Commitment to continual improvement of the environmental management system to enhance environmental performance.

This Policy is maintained & communicated to all employees, suppliers and sub-contractors and is made available to the all interest parties on the internet page and upon request.

Tony Maclaughlin - Director
